Dr. Crawford said: "My visit at the present time in this city is to look up the present sanitary condition of the city in regard to milk sanitation. The death rate of babies can be reduced and we are going to see that it is done."

Must Muzzle Dogs.—Because of the hot weather the danger from mad dogs is imminent and because of that fact Mayor Carlson has issued a proclamation to the effect that chapter 10, section 7, of the city ordinances, relating to the muzzling of dogs, must be enforced. RINGINGS ON THE WAY

Will Give Two Exhibitions in Moline, Thursday, July 27.

It is announced that Ringling Brothers' world's greatest shows will give two performances in Moline, Saturday, July 27. The performances will be the same as those presented in the Coliseum at Chicago and Madison Square Garden, New York. The Ringlings have an all-feature show. Not content with owning the biggest and best circus in the world, they have kept on growing and improving. It is their policy to grow and improve. They cannot help it. They are still young men and not at all content to rest on past glories. Perfection is their aim. They have practically attained it. The foreign agents of the show are an unusually energetic and progressive set of men. They have stripped Europe and Asia of all its best talent for this year's tour of America. And fate was kind to them. Last winter was an unusually productive season in Europe in the way of novelties. They were all secured. The cost of this importation of talent would have bankrupt any other show in America. Meantime in the tropics of South America, India and Africa, squads of trappers searched the forests, jungles and everglades in search of curiosities. In Africa the chiefs of several tribes were induced to leave their people behind and help to entertain the United States. Also a great many curious specimens of animal life fell into the nets of the expedition. In India a capture was made in a single day that is almost priceless. It is Tiny Tom Tinker, the smallest elephant ever seen. From early last fall up to the first thaw of spring an army of Italian and French artists and property builders worked night and day in the foreign workshops of the show at Stoke-on-Trent, England, devising and building the new equipment which is this year displayed free upon the streets of every city visited. It is the grandest spectacle ever presented by a circus. It costs enough money to buy any other show. It is a pictorial history of the world, peopled with 1,200 men, women and children from every corner of the earth. This wonderful organization is hauled from town to town on eighty-five 60-foot railroad cars, making a train over a mile in length. The train is divided in five sections. The daily expenses of the show are \$7,500. There are 550 horses, 1,000 wild animals. It takes fourteen acres of canvas to house this big family.

An Attractive Style From New York

Every lady is interested in hair dressing styles because a becoming and effective coiffure adds much to her personal appearance. Individual attractiveness is very largely dependent upon the hair. Therefore, we say "Take care of your hair." A few moments each day devoted to brushing the hair, massaging the scalp and an application of Newbro's Herpicide from two to four times each week will accomplish truly wonderful results.

Hair that is neglected shows it and quickly. It is uneven, dull, brittle and the scalp usually infected with dandruff. Hair in this condition is unsightly and cannot be made to look neat, no matter how carefully arranged. The above simple suggestions relative to the care of the hair will, if followed, correct all of this.

For the accompanying model the hair is waved all around with a slight part on the left side. A slight fringe is made across the front, as shown in cut. The hair is dressed broad effect with Grecian puff finished with torsar across. The back is shown with loop on each side, finishing with a few soft curls at nape of neck. Use small shell pins.

NEWBRO'S HERPICIDE

Is a Most Exquisite and Delightful Hair-Dressing.

The hair takes on an astonishing luxuriance and beauty which are always associated with the use of this wonderful scalp prophylactic. With the removal of dandruff and the restoration of a healthy condition of the hair and scalp, the hair ceases to fall out and nature asserts herself in a manner which is almost at once noticeable. Try it and see. Newbro's Herpicide destroys the invisible microbe growth which causes dandruff and keeps the head clean. Newbro's Herpicide was the first preparation made to kill the dandruff germ. It has for years been known as "The Original Dandruff Germ Destroyer." Any preparation for which the same claims are made is trading upon the reputation of Newbro's Herpicide and is an imitation. Don't take something "just as good." Insist on having genuine Herpicide.
